SKWIM LAGOON SIZE & PLAYER COUNT RECOMENDATIONS:

Premier SKWIM is played in an Official Lagoon size of 40 meters by 20 meters.   However, Competitive, Recreational, and Family SKWIM can be played in a variety of pool lengths and lane widths (assuming lanes are 6-8 feet in width). We refer to lane width because lane location eyebolts are an easy place to connect the boundary sides for SKWIM. You simply need 2-3 lanes to play SKWIM, or a minimum width of about 18 feet. About 18-20 ft. wide minimum for Premier Goals, 10-12 feet wide minimum for the new Recreational Foam Goal. Length of lagoon can be as short as 35-40 feet (12 -14 yds).

(Family or Rec Skwim can accommodate up to 12 on 12, in a 6-lane 25-yard pool).

1-lane wide = for passing and scoring drills only   (rec or Premier Goals)
